

Snowy Plover Color Band Report- Data Sheet

Please report the following:

I. Observer

Last name.	First name.
Email.	Phone. ()

II. Location and Time

Longitude.	Latitude.				
Site description.					
County.	State.	Date.	Time.	<input type="checkbox"/> AM	<input type="checkbox"/> PM

Why reports are important?

Each observation provides a new time and location for a specific individual which is valuable data as researchers learn more about the movement, habitat requirements, and survival rates of Snowy Plovers in Florida.

III. Banded Combination

Note: bands can fade, discolor, and fall off so please include detailed notes where determination of a band(s) is uncertain.
