**Wilson's Plover**: There are several projects throughout the Southeastern United States color-banding Wilson's Plovers. For Wilson’s plover with alpha-numeric coded bands, see the table below for reporting information. Not all Wilson’s plovers are banded with coded bands. If you are unsure or observe an individual without a coded band, report band resights to [WIPL.banded@gmail.com](mailto:WIPL.banded@gmail.com) or [raya.pruner@myFWC.com](mailto:raya.pruner@myFWC.com).
